iate — Basic search - Standard view

1 Enter a term/string/ID that you want to search for
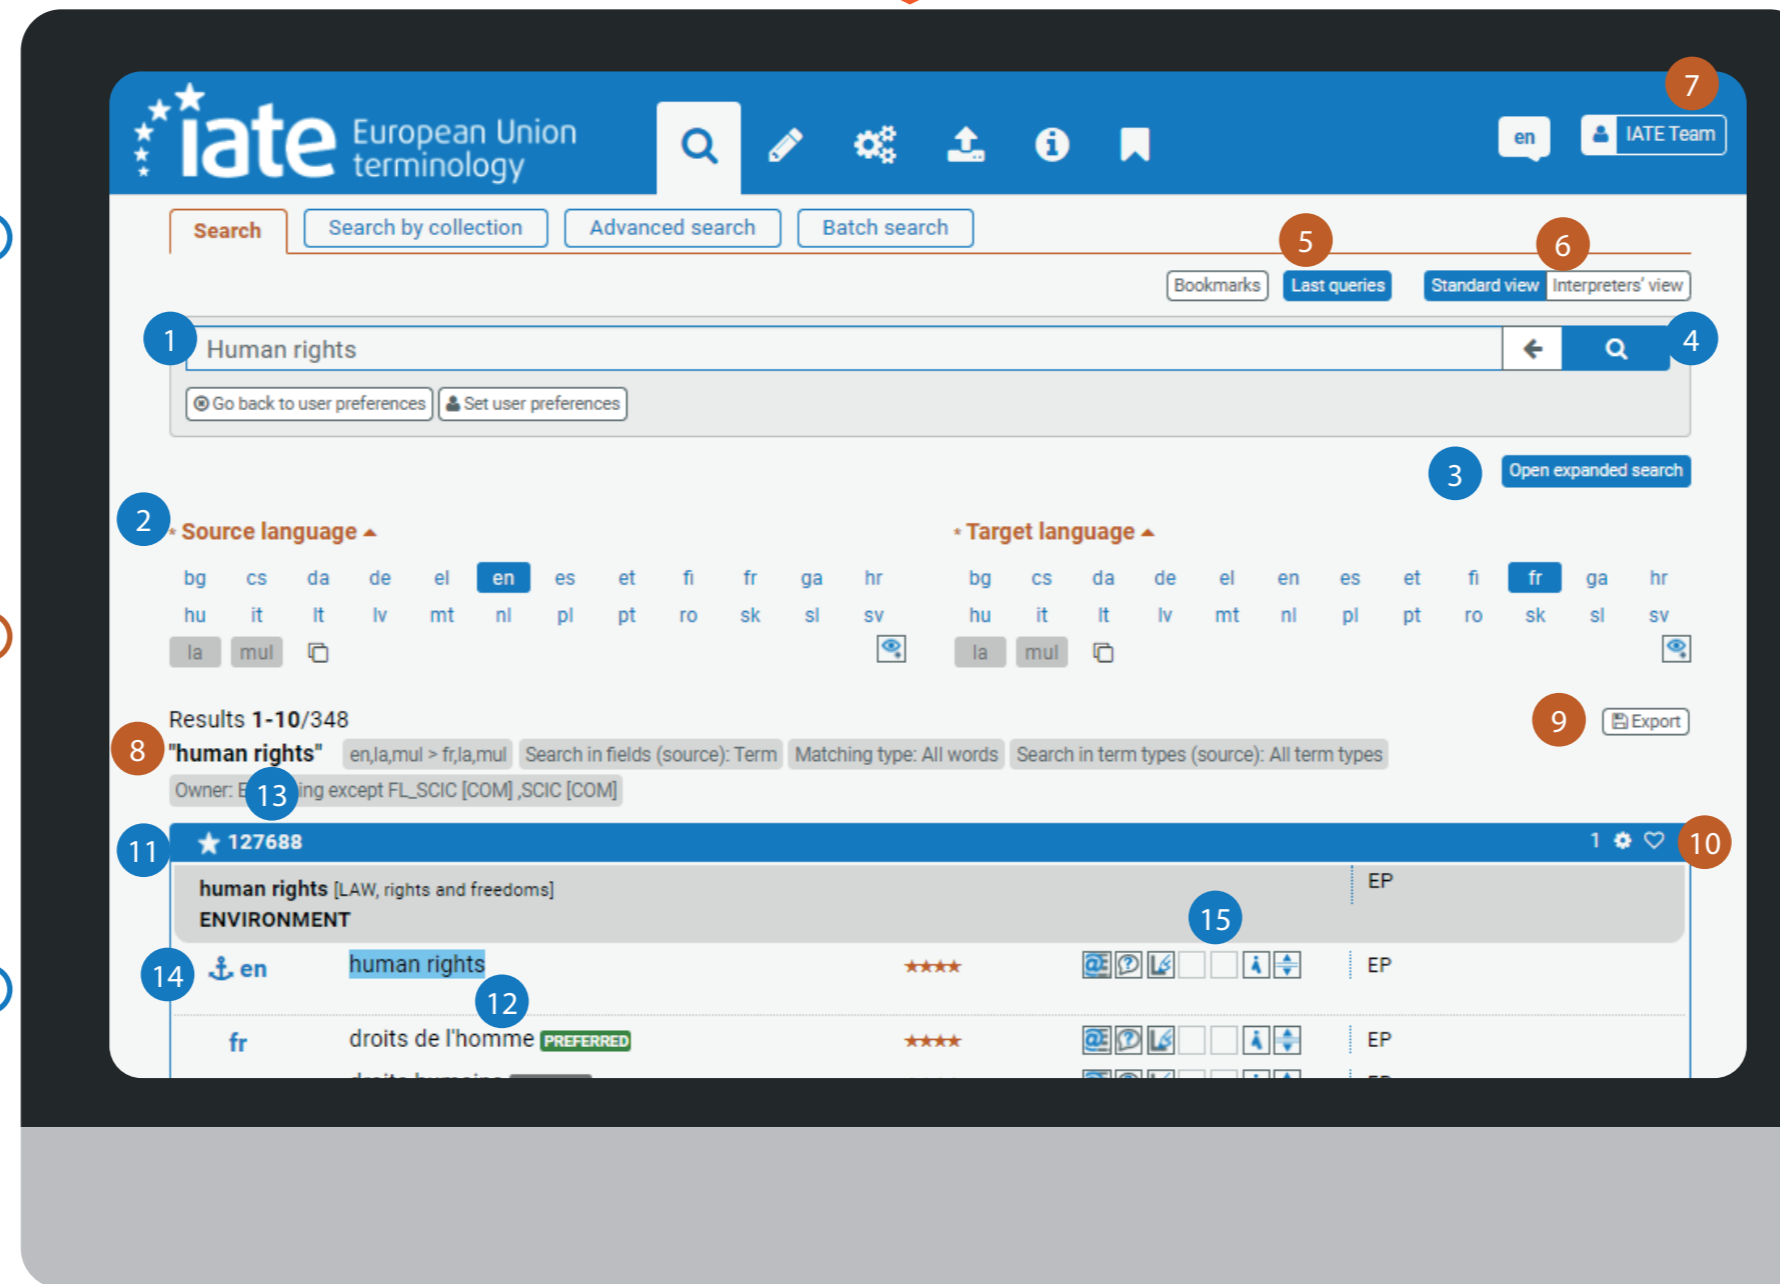

2 Choose at least one source and one target language

3 Define more filters for your search (e.g. domain, primarity, owner or reliability).
Some filters are available under 'Show more'.

4 Launch your search

5 Display your last queries (you can save a query or run it again)

6 Switch between views

7 Set your preferences for search, results and full entry view display options under 'User preferences'
(registered users only)

8 Review your search criteria. Click on filters (domains, collections, owners, primarity) to remove them from your search criteria

9 Download your search results as a table or termbase
(internal users only)

10 Add the entry to your bookmarks to retrieve it quickly
(registered users only)

11 Refine your search by primaries, domains, owners (hold CTRL to select several)

12 Launch a new search for this term. Select the term(s) you want to search for by double-clicking (or long tapping for tablets). The matching type will be set to 'All words' and the other search criteria will remain the same.

13 Open the full entry for consultation

14 Open a language level directly

15 Click on the icons to display term reference, definition, language level note, term in context, term note, and additional information, or expand all at once. If the field is empty, so is the icon.
